With optimized sleeping comfort this mattress is specifically designed and crafted for the high quality needs of the hotel-business. It is considered the individual needs of the hotel guest and takes into account the high product-needs of modern premium/first-class hotels.

The most common criteria for the hotel-guest referring his well sleep in a hotel bed is the hardness of the mattress, followed by hygienic criteria. This mattress-type offers here a harder and a softer lying surface in just one product, so this mattress can be adapted by simply turning according to the guests wish. At the same time it is provided with a high-quality doublestitch fabric, which contributes by its property the needs of allergic disposed people.

Our 1/2/3/4 TURNING-LABELS allow the hotel staff, to determine the time of the last turning and it gives the hotel-management a control-possibility to control if and when the mattresses have been turned from the housekeeping (or by the guest).
